150yd poles

Duck Creek Golfers,

This August 2017 Duck Creek Golf Course installed vertical poles indicating 150 yards to the center of the green. The new poles replace the ground level white blocks that were difficult to see. The ground level blocks still remain to indicate 100yds = Red, 200yds = Blue. We hope these vertical poles provide a helpful and simple level of guidance expected for casual golf play.

If you have any questions or concerns please feel free to email Troy Evans, tae@ci.davenport.ia.us, or call 563-326-7822 Duck Creek Golf Maintenance Shop. We would be happy to discuss this issue or any other Davenport golf topic with you.
