Emeis Golf Course - New Forward Tees

October 16th, 2017

This fall, Emeis Golf Course will be installing four new forward tees and will be reconditioning current forward tees on holes 15-18. This new construction is the first phase of building new forward tees on the entire golf course. Reason for the construction is to provide a higher quality playing experience for our ladies and seniors. Along with the new construction, we will be seeding the new tees into two varieties of creeping bentgrass, which is a much harder and stronger grass for our tee surfaces. Upon completion, we at Davenport Golf hope to make your experience at Emeis a more enjoyable round to play!

If you have any questions or concerns please feel free to email Matt Woolam, mwoolam@ci.davenport.ia.us, or call 563-326-7827, Emeis Golf Maintenance Shop. We would be happy to discuss this issue or any other Davenport Golf topic with you.
